Sherry-Mary's Phonic Lichen

For example for a good of it for fuck's sake for a quartet of pheromones
Here is a reasonable example you were asking for, albeit politely
I don't have to grind my teeth to hear into a future body of turtles
Crow loud if you will decide on sleeping; let me into uno secret

Mothers always have a resistance to magnifying sutures
For a while now I've considered you defunct and rigid, like camel saddle
A way wind spews itself without any indication of need
Hold me restive kneecap: do what it is you really want

At a back of a house is a bucket filled with sawdust Sniff it
Slowly, don't check into a sewer, promise Take your degree in Biz Admin
Crumple its shins Grunt as you release a defecant Torso small
Ankles chubbed out like salami I hate you for your slick pedicure

Don Valley is a good name if you live in an area, or, if not, you're
Nostalgic for an arena Why not keep your better clothes in a mothproof bag
Buy a bruised fruit, a fig, Asian pear, pomegranate Stiffen
Up, cling to yourself all through a loneliest dead-of-night crests you.

For me this is a very interesting example for another opinion press star
Gild lilacs in a most casual charade Don't pack too much in one pouch
Do what you do when for example you try to do some particular thing
Don't get vague on me for fuck's sake regard me with a glint of tin

Simper like a bunny Radiant mechanic likes to fix things silver, squid
Black Strafe roads vivid, get me? Let in a driver's seat Hold my coffee
In two hands as if you had a third Resemblances to rose bushes lose squeaker
Payoff I wanted to see not a top of your head but into deep into your skull

Four catches tongues in an embarrassing psychopatent I was real original
And proud of a fact of how real this accomplishment can be when I am half
Awake In her head, I am telling you this again about her skull's inside, carmine
Compartment shivered with extra spaciousness and I closed a little latch

A Rouge we are not so sure of how to get close to, but all trees awfully
Fresh Gurgle over pebbles Stream chill For a best result keep stern
For heaven will always palpate like blood, it's just an idea of its best version
Of frank self, what a self looks like inside its very reddened cap crown on.

You dilly-dally when should ramble or
gallop Knick-knacks in my mother's gifts
jiggle: extra bubble wrap Hee-haw on
the see-saw unabashed Too much bratpacking

for the social good Scritch-scratch when
you get the crabs Jesus Murphy!
Just about tumbled higgledy-piggledy outa my
brassiere Turf ship-shape from the lawnmower

Sentences flitting about loosey-goosey, zif
thirsted at sea Turvy-tilt on Benedictine
and lime-ade Beaten up willy-nilly for
precious little My kid sister's loitering

about hoity-toity, lallygagging on MuchMusic.

No Folic Folly, Okey-Dokey?

Sherry-Mary does know all about the hoity-toity supplements
one should ingest when Jesus Murphy! pregnant Sherry-Mary can
dispense a lot of dilly-dally advice to anyone
who wants to get pregnant Sherry-Mary's been loosey-goosey
there a hee-haw half dozen times and would
go again to the altered bratpacking state of
pregnancy It's just a scratch-scratch example Sherry-Mary finds
interesting Many women couldn't take the lallygagging news
of knock-up easily We'd balk They'd see-saw walk
She'd crack You'd smudge out the higgledy-piggledy opportunity
for very good ship-shape reason but for Sherry-Mary
it remains worth saying turvy-tilty if one's gonna
be seeding the willy-nilly fetus it's VERY IMPORTANT
TO TAKE extra folic acid knick-knacks EVERY DAY!

Sherry-Mary's therapist suggests

For example a reasonable
future body on sleeping;
resistance to rigid, like
itself without kneecap: do

Sawdust sniff your degree
its shins hate you
or, if clothes in
fruit, a dead-of-night crests

Another opinion most casual
for example fuck's sake
things silver, vivid, get
a third head but

Real original accomplishment can
awake in extra spaciousness
close to, over pebbles
an idea very reddened.

Ash, as in ashen, Sherry-Mary feels

Surreptitious breasts of the brain's inside, crammed with reptilian lights, u.v. or incandescent, zoom lens for the purpose of petalled heights. Sherry-Mary saw him hunkered and hiding, grasping leapable bells in his greasy palms. Smarmy knots.

Reptilian harelips was the only upside of a tragic night. Trainer downpours so that the race was cancelled. Shit, her big bog nearer buttocks, she was leaking and made a slushy sound like errant rodents, skewering pork tidbits sheltered by a rooftop.

Trainer rages , that's the thing, the habit that succumbs to lalala ales, her mother always lathered the chest region liberally, no alibi autonomy, senses of guilt and ease of corruption. They got out of theirailable experiments, don't you worry.

Lalala everything, weight of how gay-hearted one must pretend, through lamented prayers and handicapped vision. Used to have a vicegrip on team porkchops, thick carcasses of inevitable excellence, always the interesting eminent nemeses of her will to fail and relax a little. She just wanted a nap.

Lamented peppermints, then. Something stupid and picayune, Sherry-Mary's temperamental capitas, her favourite premise for a day in bed. Rope her in ermine muck, slush-filled as the humiliation by soaking and bypassing mirthful perimeters, how joyous she was wearing the smile of a cheater.

Temperamental encounters which her father encouraged, and Billy-Bob's repetitious kisses, French "restraint," kind where you orgasm out loud toward breasty weeping cascading how ridiculous it is, all the sentimental noise of eastern shorebirds sniping and shredding meat from each others' beaks.

Repetitious steeples hurt them. Run, run the other ditch past clever night
etiquettes, quiet shoe in a pile of dog shit, wipe and douse and camouflage;
quittable furnishings spew plastic odour anyway, nobody's got the sensors for taut
locations, exact maps. It's abreast of the brain's inside again, surreptitious

Etiquettes, moderate verging on maniacal, all of them prefer civilized
tete-a-tete chowdowns where one will wonder if the pork is well-cooked, prize
teatlike tardiness, undiluted crankiness. Do it right, is what they wish of
chamomile archipelagos. Do the example as well as interest will indulge.

Sherry-Mary's Daily Self "Check-in"

I was wearing some pile of

Run, run the tidbits sheltered by
worry. Do it right—

Sherry-Mary's slow home from therapy

This guy is walking, Bausch fans yakking on his cell phone, of course. "It Bucket shins will be good for me to be Camel spews the face of the company for once, I've shunned Defecant ankles, slick this role for so long, I'm wearing my Elbow shoppers green suit, gold tie, not crumpled but Example pheromones fold marks, okay, you should wear the Fig crests dress, that one, it's good for us, I Flowered wobbly cops feel." Sherry-Mary's Friend Billy-Bob

I so love Sherry-Mary and all her hoity-toity supplements. Jesus Murphy! I said pregnant again! My dilly-dally advice won't be any good, for who wants loosey-

goosey me to weigh in after kissing so repetitively all up and down Sherry-Mary's surreptitious breasts and nearer buttocks and oh-so-pleasant well of

chamomile cunt juice, all her mirthful perimeters, such lalala hee-haw half dozen times I repeat myself and would go again, just a scritch-scratch example

many women couldn't take, they'd balk or smudge me out of the picture drop my file in the DO NOT SORT pile at any higgledy-piggledy opportunity and for

very good ship-shape reason but for Sherry-Mary whom I adore it's no whim or wham-bang remains worth repeating turvy-topsey if one's gonna be seeding the

petalled heights of a darling willy-nilly fetus she tells me it's VERY IMPORTANT TO TAKE extra folic acid knick-knacks EVERY DAY so I'm

buying a double supply plus some peppermints and fig crests for my sweet kickboxing knickerbocker Sherry-Mary! I love to fuck her so!
